

CardServ ID Aged Care Facility Solutions

CardServ ID and Entrust Datacard offers a range of high quality, reliable and efficient ID card printers providing you with high quality cards for less. Protect your staff and facility with instant high quality photo ID cards.

Ready-to-go ID Card Printing Solutions

To ensure facility security, aged care organizations are issuing ID cards to all residents, staff and visitors. Security of your aged care community is priority; we have a versatile range of ID card printers to meet all requirements.

Practical Identity Solutions for Aged Care Facilities

Provide your staff members with clear easy to read identification cards so that all patients can identify names and differentiate between job roles.

Enhanced security. Protect your facility. Instantly identify staff and visitors to know at a glance who is authorized to be onsite.

A sense of community. Create ID cards that showcase the visual brand identity of your facility and reinforce a sense of community. You can even create different ID badges for different departments, as well as visitors.

Simplified operations. Entrust Datacard identification software and ID card printers offer user-friendly operation to maximize productivity. Staff can begin issuing ID cards after just a few minutes of simple training.

A dependable investment. Now more than ever, aged care facilities are under more financial pressure. Entrust Datacard ID systems provide a cost-effective security and access-control solution, backed by more than 45 years of industry-leading experience that protects your investment.

“98% of patients stated it would be helpful for staff to wear a name badge that is clearly readable with 92% suggesting it would be helpful to have their role clearly stated (Prescott, 2015).”

CardServ ID Printer & Software Bundle Options

Entrust Datacard ID card printers deliver best-in-class performance and reliability.

- Easy to learn and operate with intuitive, soft-touch LCD control panels.
- Advanced card handling minimizes jams while driving full-color print speeds up to 200 cards per hour.
- Cards and ribbons load in seconds to keep long print jobs moving.
- Field-upgraded for functions such as magnetic stripe, proximity and smart card encoding.

Organisations can then decide which printer option will work best for them based on their employee badge requirements.
